

NON-STANDARD  
EQUIPMENT

more about the Company on our website  
[www.giraffecrane.ru](http://www.giraffecrane.ru)

**«Giraffe — is a unique partner**  
in the market of construction load-lifting  
equipment and steel constructions for the  
oil and gas sector.»

**We considerably differ from other companies thanks  
to wide geography of delivery of our cranes, excellent  
client service and reliability of the offered production.**

Due to improvements in technology and modernization of the manufacturing process, the Giraffe Company strikes a balance between high quality and reliability of constructions with serviceability and mobility of their operation.

Through continuous improvement of quality of all our production and well-established client service, we build a strong relationship for many years.

The Giraffe Company offers individual approach to every client. This means providing support and guidance throughout the project implementation process. The wealth of experience of our engineering service allows us to offer the wide range of different models and configuration and to make any ideas of our consumers to come true.

We are always ready to go to meet the customer's needs and give them the optimum financial solution.

The wealth of experience of our engineering service allows us to resolve any issue in the shortest time possible.

You can work with the Giraffe Company without worrying about the little things – we can also take care of transportation, shipping, supervised erection.

The Giraffe Company offers a wide range of services providing the most convenient way of cooperation. Erection and disassembling, re-equipment and modernization, repair and service of cranes are carried out in the shortest possible time and at the highest level. We appreciate time and efforts of our clients.

We will never stop the way of perfection therefore every day our engineers, designers, employees of production, sales and service are working for your advancement and comfort.

Taking care of clients, we make an ideal construction tool from high-quality steel and excellent parts that customers in Russian Federation and in many countries have already appreciated.

**GIRAFFE**

THE GANTRY  
CRANE  
OF KK TYPE

**20-25years**  
the approximate  
life of gantry crane

## QUALITY

- the framed construction provides lightness and safety of crane

## VARIABILITY

- the wide range of models and configurations
- the possibility to project and to manufacture according to the individual request

## SAFETY

- the guarantee under the very severe climate temperatures
- very wide range of warranty

## COMFORT

- easy to install
- there are always components and parts for replacement and repairing
- the modern safety system
- the modern comfortable operator's cabin
- the compact size for delivering

## OUR SPECIAL CLIENTS:

**OOO Rechitsadrev**, – Rechitsa, Belarus

**OOO TFK** – Tjumen

COMFORT

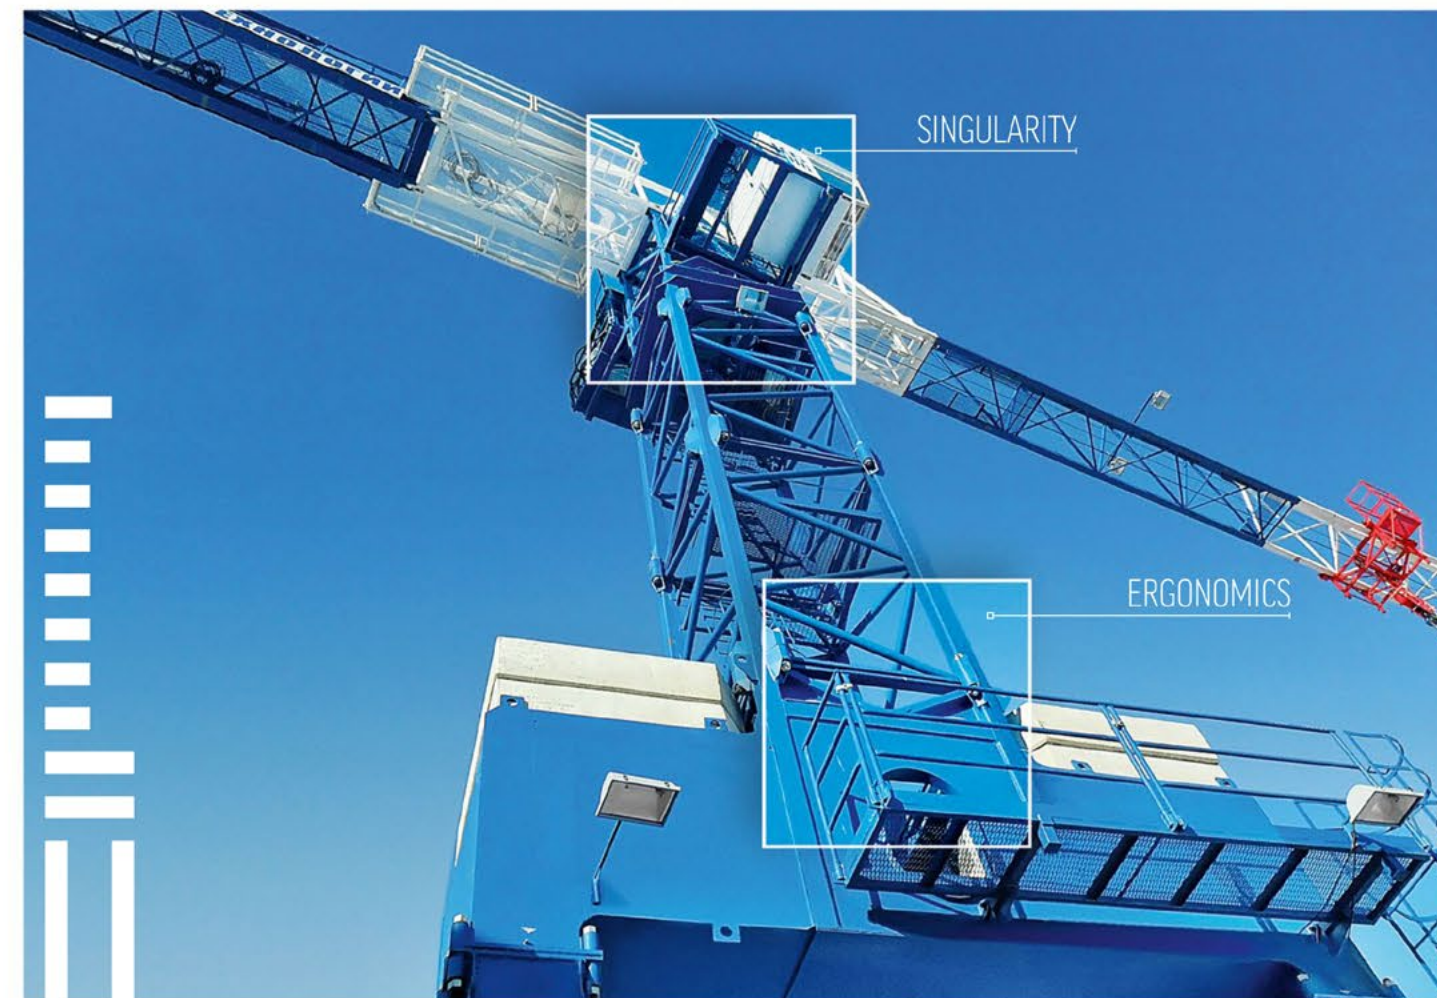

### THE PORTAL CRANE TDKP-10.300

**30 m**  
max. arm radius  
of crane

### SINGULARITY:

- the modern engineering decisions
- the lack of Russian analogs

### ERGONOMICS:

- easy to install
- connecting with screws
- compact size

### FUNCTIONALITY:

- big variety of fulfilments and options

### COMFORT:

- there are always components and parts for replacement and repairing
- the modern comfortable operator's cabin
- the modern safety system

### SAFETY :

- very wide range of warranty
- the guarantee under the very severe climate temperatures

### OUR SPECIAL CLIENTS:

**OOO PF Insenskii derevoobrabatyevajuchii zavod** – Inza  
**AO Samarskiy zavod Electrohit** – Samara  
**OOO AK VNZM** – Salavat

25 years  
the max. life  
for the drilling  
machine

THE STEEL CONSTRUCTIONS  
are produced for the largest Russian  
Manufacturers of drilling equipment

OUR SPECIAL  
CLIENTS:

OOO Rosneft-burenije  
OOO Uralmash NGO Holding  
AO Uralo-Sibirskaja Promyshlennaja kompanija  
OOO Burovaja kompanija Evrasija

SUPPORTING EQUIPMENT FOR PIPELINES  
safety, long service life, quality,  
big variety of supporting devices

OUR SPECIAL CLIENTS

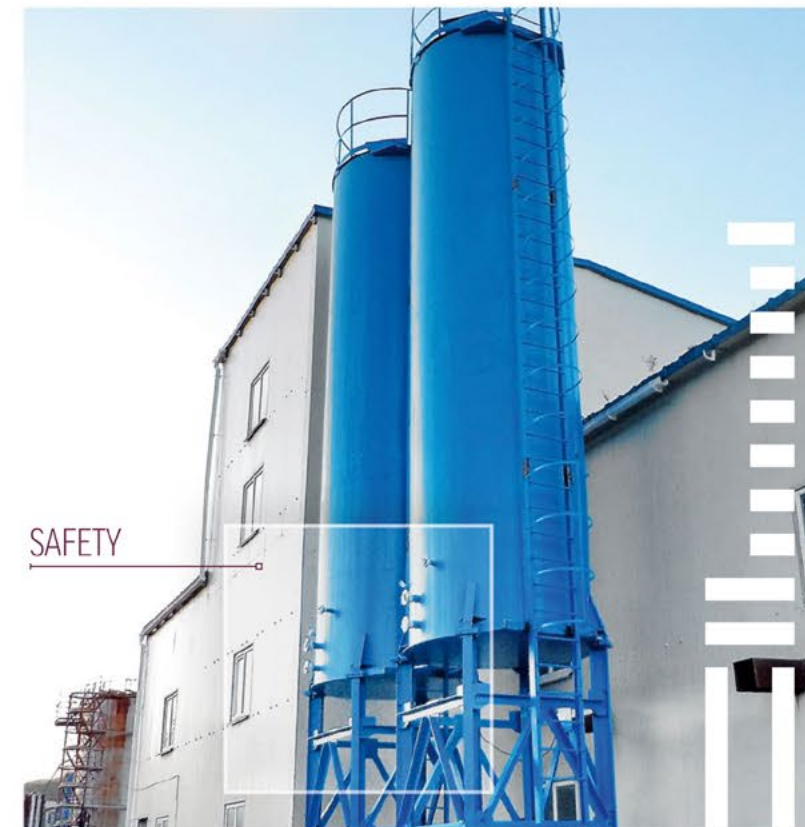

for the building of pipeline  
"Zapoljarje-Purpe". For the request:  
**OOO AK Transneft**  
**ZAO Konar**

up to 100 m<sup>3</sup>  
capacity  
of reservoirs

## HEAT-INSULATED BOILERS AND CONTAINERS FOR THE BITUMEN AND EMULSION

- any capacity
- any temperatures for the bitumen
- heating with the heat-transfer or electricity
- the ideal checked balance
- low-power

## THE HORIZONTAL STEEL SURFACE AND UNDERGROUND RESERVOIRS

- for oil products
- for water
- for the chemical materials of the high danger

## ANY OF THE RESERVOIRS, CONTAINERS AND ETC. ACCORDING TO THE INDIVIDUAL PROJECT WITH FOLLOWING:

- stairs & engineering platforms
- automatic machine for mixing
- device for measuring the level of materials
- protecting device

### OUR SPECIAL CLIENTS:

**ОАО Bashavtodor**  
**ОАО Dorozhnaja sluzhba of Irkutsk's area**  
**ОАО Tatneftedor**  
**ОАО Khantymansiskdorstroy**  
**GP Severavtodor**

25 t  
max. lifting  
capacity

«NAKS»  
company  
has the qualifying  
certificate

## THE COUPLED LIFTING DEVICE WITH THE TILTED JIB

for the lifting and installing of the oil and gas  
equipment on the open air places

- high cross – country ability
- easy and universal to use
- big lifting capacity
- high quality and safety

### OUR SPECIAL CLIENTS:

ОАО Surgutneftegas  
ОАО НК Rosneft  
ООО Irkutskaja neftjanaja kompanija

## THE NON-STANDARD STEEL CONSTRUCTIONS

The steel constructions produced  
according to the individual  
requirements of our customer

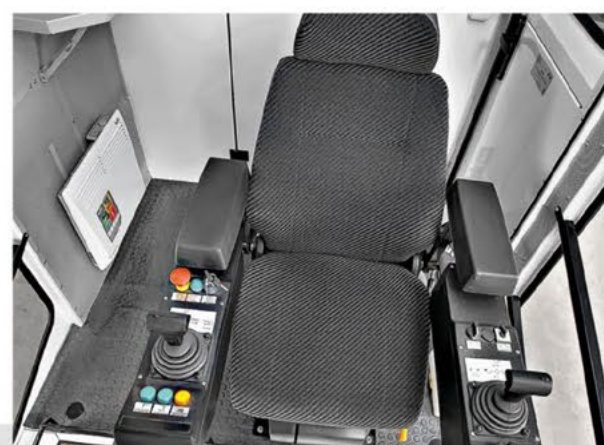

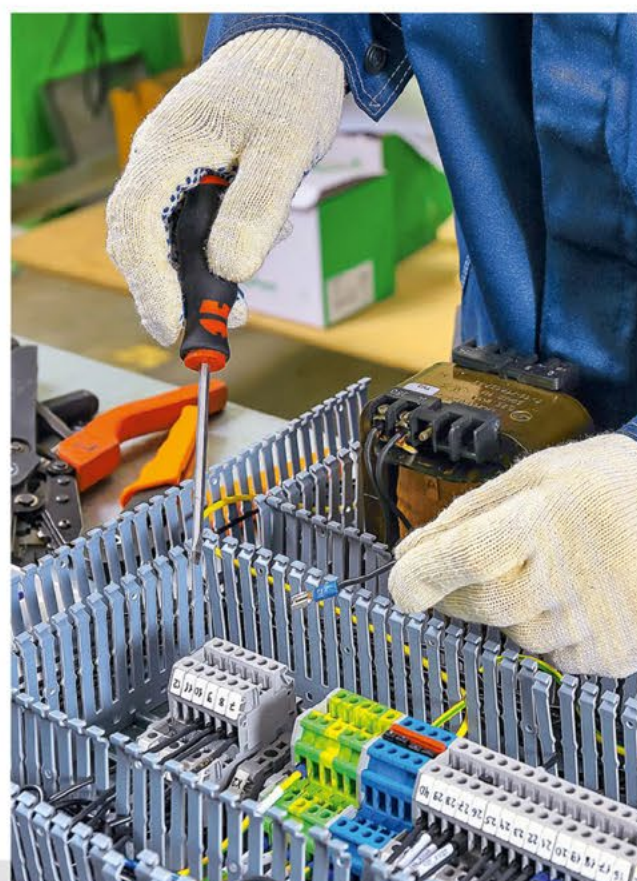

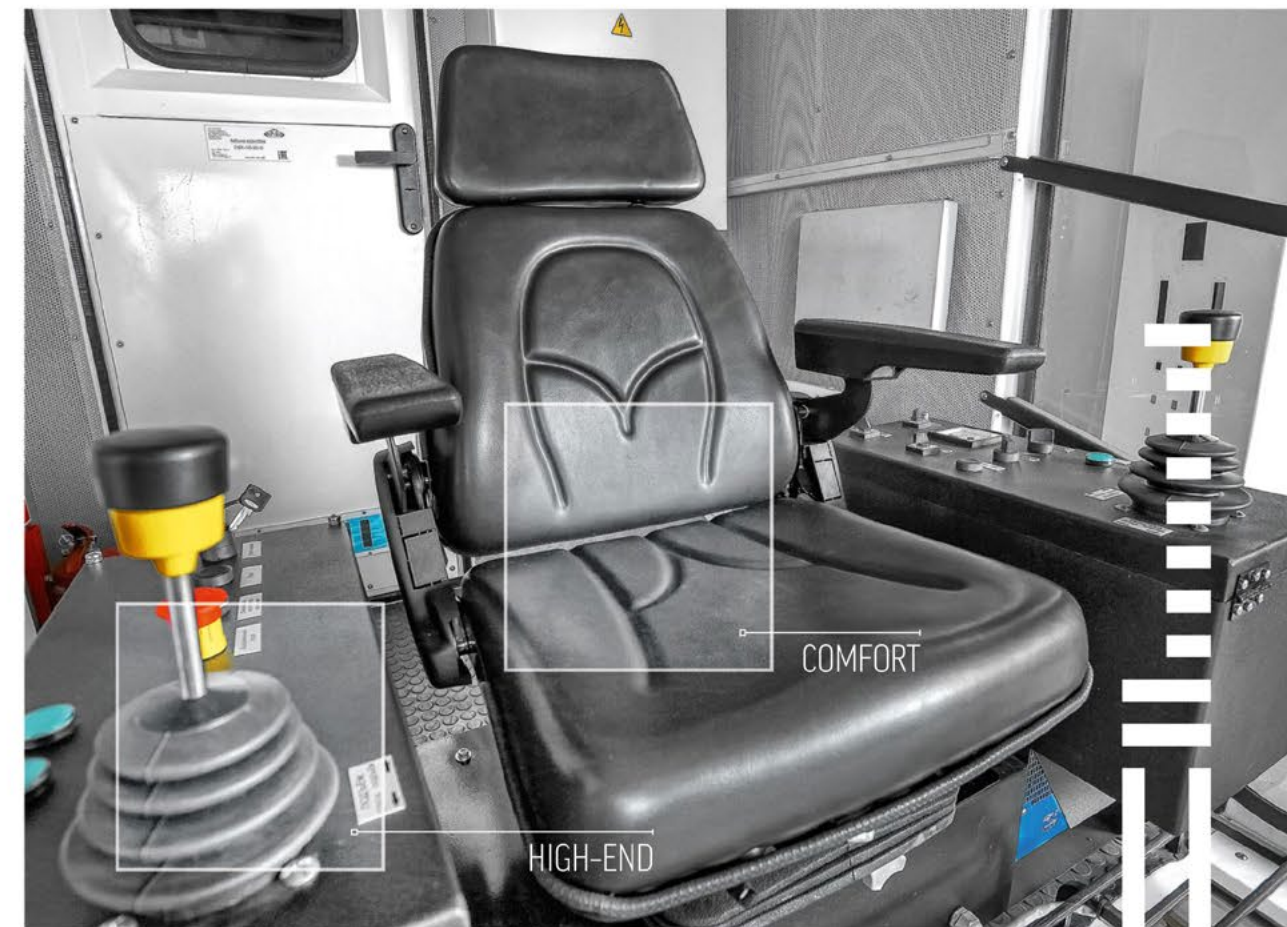

### OUR SPECIAL CLIENTS:

ОАО Chelyabinskii metallurgicheskii kombinat  
ОАО Chelyabinskii truboprokatnyi zavod  
ОАО Severskii trubnyi zavod  
ООО ChTZ – Uralrtak

**MONOCABIN**  
the innovative  
construction  
of Giraffe

## HIGH-END

- The safety system that protects from the overload
- The diagnostic system for the imaging and visualization of electrical equipment
- The system of the remote access to the diagnose of equipment and setting up of the control systems
- The system with the limited areas for the safe works
- The other automatically systems. The complete arrangement of these systems depends on the specification.

## VARIABILITY

THE CABIN AND CONTROL SYSTEMS FOR:

- gantry cranes
- portal cranes
- drilling rigs
- tower cranes
- deck cranes
- automobile crane

## COMFORT

- heater & conditioner
- electrical heating of windows
- MONOCABIN – is the innovative construction that makes easy setting up and technical service of the equipment

## OUR SPECIAL CLIENTS:

**ООО Мехнический завод** Челябинск  
**ОАО Surgutneftegas** Surgut

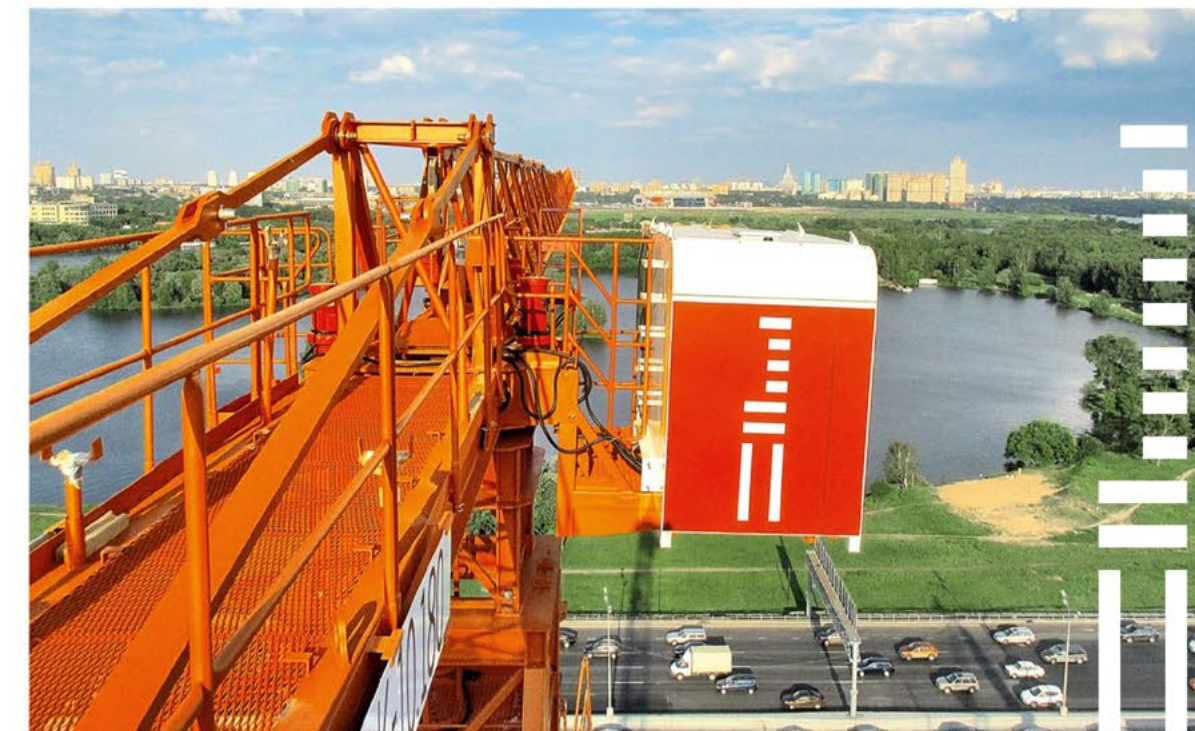

### THE TOPLESS TOWER CRANE TDK-10.215

**75%**  
of Russian  
tower crane's  
manufacturing

**2014-2015**  
Russian  
tower crane  
top seller

**FIFA-2018**  
building of the  
World Cup  
projects

### UNIQUE PRODUCTION AND TECHNOLOGIES

- Latest models of topless tower cranes
- The only first Russian fast self-erecting cranes
- The first monocabin of Russian manufacturer
- Cooperation with the leading European engineering bureau

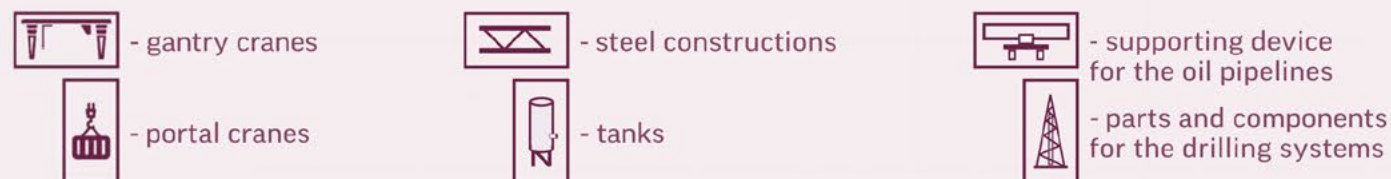

### HIGHEST LEVEL OF SERVICE

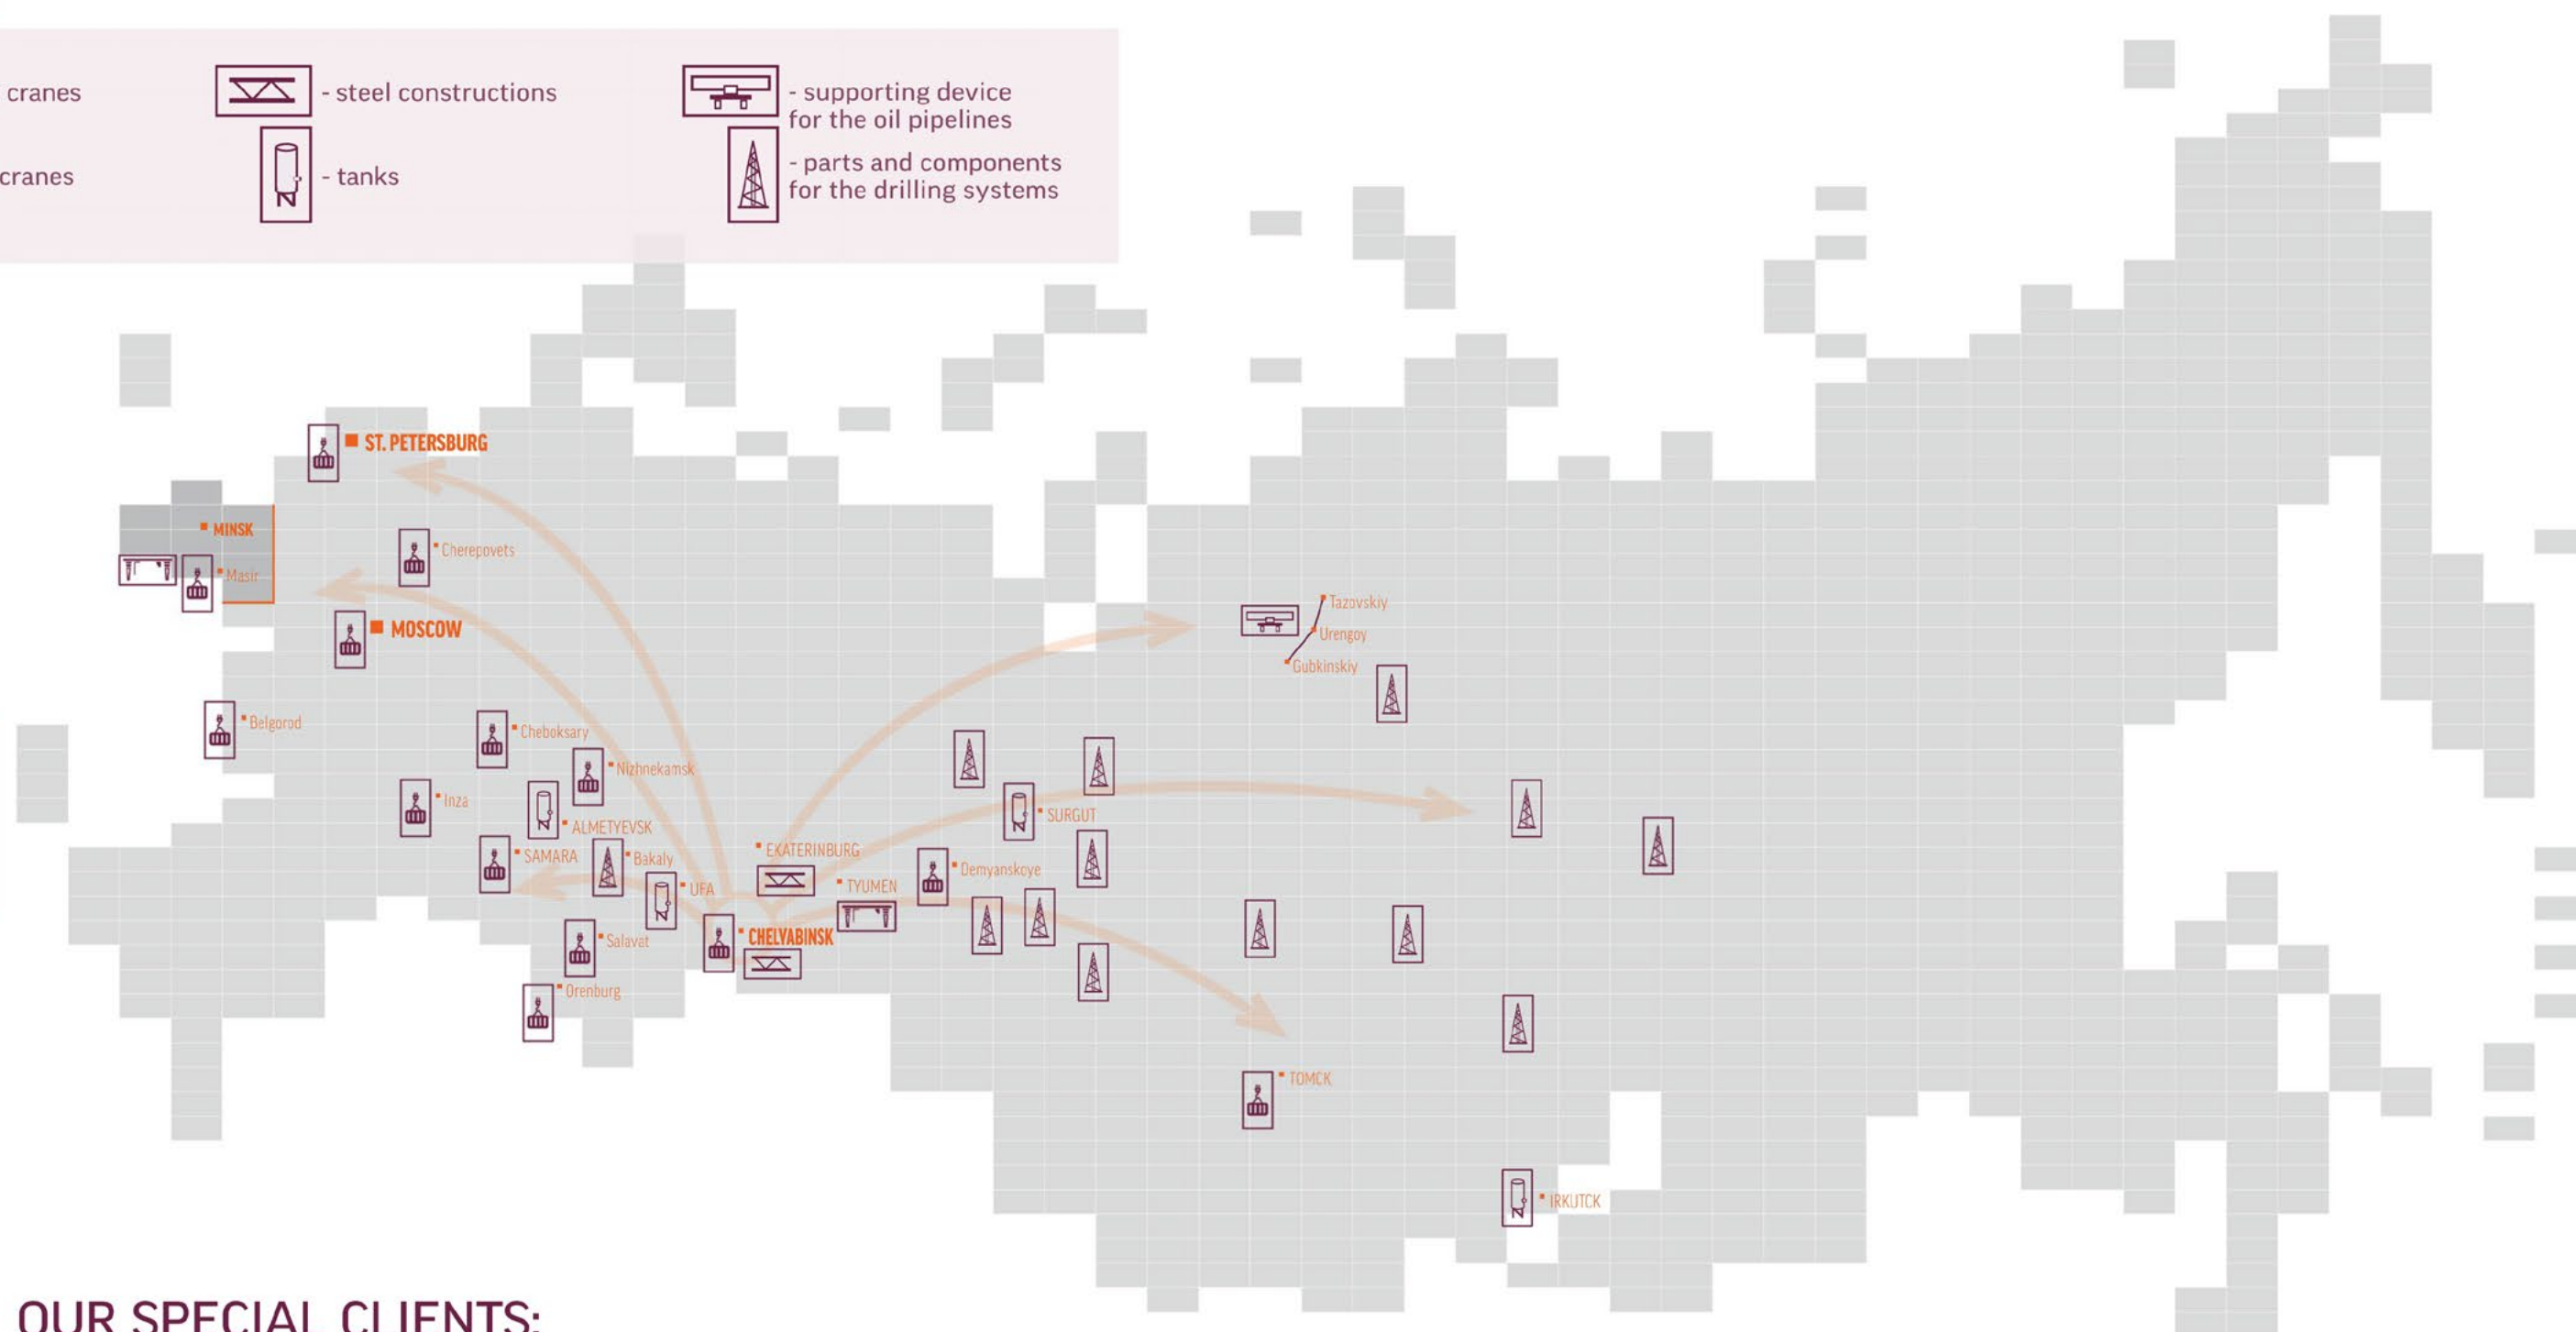

Erection and supervised erection  
Service offices  
Warranty  
Maintenance team that  
provides fast-acting service  
Quick and convenient  
delivery conditions  
Big variety  
of finance instruments

**GIRAFFE**  
is the largest  
manufacturer  
of lifting  
equipment  
in Eastern Europe

### OUR SPECIAL CLIENTS:

454048, RUSSIA, CHELYABINSK,  
UL. ZAGORODNAYA, D. 18, OFFICE 5  
+7 (351) 729-92-93
